

We're committed to providing high product quality and service that exceeds our customers' expectations.

Our ropes access all areas

When working at height is a problem, contact Total Rope Solutions. We have all the latest wire rope to suit all your requirements.

We have in stock 8.0mm, 8.3mm and 9.3mm 4 strand special non-preformed ropes for all cradle access companies. All ropes have a very high breaking strain to suit the new factors of safety required on site. All ropes supplied are fitted one end and fused and tapered at the other.

All our access equipment is manufactured to all the relevant BSEN standards and are insurance compliant.

For the complete safety equipment range please look at the dedicated page on our website or contact our sales team.
