Total Rope Solutions have partnered numerous projects for the supply and rigging of many famous events and venues including Wembley Stadium, the O2 Arena, Manchester Arena and the Millenium Stadium.

We keep one of the largest stock volumes in the UK of products designed for the entertainment industry. Supporting unique events, we also manufacture a wide range of bespoke products ensuring safety without compromising the creativity of your stage. We can cater for all types of rigging requirements, our stock of black rope and fittings are the most comprehensive in the UK

All our products are available in black as well as galvanised finishes enabling your audience to focus on the show without visual distractions and come fully tested, with test certificates supplied ensuring compliance with the relevant standard insurance requirements.

We're committed to providing high product quality and service that exceeds our customers' expectations.
