

We're committed to providing high product quality and service that exceeds our customers' expectations.

## Bespoke assemblies exactly how you want them

Total Rope Solutions manufacture high quality wire rope assemblies for a wide variety of applications. All our assemblies are manufactured in-house by fully trained riggers and supplied with test certificates in line with our ISO9001:2008 quality procedures.

We produce assemblies to order from 1mm through to 52mm diameter in galvanised, stainless steel and plastic covered wire rope. We produce bespoke solutions to your exact requirements including:  
Hand Splicing, Mechanical Splicing,  
Socketing, Flat Woven Slings,  
Flemish Eye Splicing and Braided  
Wire Rope Slings.
